The Core Perspective-A Golden Experience

The InnerSphere - Believe in yourself

Philosophy

Authentic human beings are naturally using their connection to all that is good. This goodness dwells at the center of each and every one of us. To strengthen and enhance your own connection, listen to your inner voice for guidance. In doing so, you will enable yourself to create a life that you love, filled with happiness, joy and abundance.

Intention

The intention of the InnerSphere pendant is to symbolize this philosophy and to be a supportive symbol as one shifts towards self-awareness and understanding. Let the InnerSphere be a reminder and a motivator to always believe in yourself.
